Do you know who you are? What you want to do? If you don't, you aren't alone. Too many of us struggle to truly understand who we are. We read books, listen to podcasts, scour the internet for some kind of purpose. But truthfully it shouldn't be that hard. And it isn't. The person you are, is right here, you can't see them for you cannot look at something you already are. But your actions every day say who you are. Your thoughts and values are who you are. What you do in the quiet moments is you, that same you that is also present in the big moments.

In the following article we ask Tanisha, an employee of PTB since 2019 *10 Questions* but we also challenge you to answer the same questions. These will give only a quick glimpse of you, but they will at least start to show you the person *you are*.
